C                                    F
Far across deep blue waters  lives an old German's daughter
       G7                          C
By the banks of the  old river Rhine
                                      F
Where I loved her and left her  but I can't forget her
G7                    C
I miss my pretty Fraulein

                           F
Fraulein  Fraulein  look up toward the Heaven
     G7                              C
Each night when the stars start to shine
                                  F
By the same stars above you I swear that I love you
G7                    C
You are my pretty Fraulein

                         F
When my memories wander away over yonder
       G7                          C
To the sweetheart that I left behind
                         F
In a moment of glory a face comes before me
                G7          C
The face of my pretty Fraulein

                         F
Fraulein Fraulein walk down by the river
   G7                                C
Pretend that your hand's holding mine
                                  F
By the same stars above you I swear that I love you
G7                    C
You are my pretty Fraulein
