**From Here To There To You-Hank Locklin**
**Author:Pete McKinley and Larry Lee Smith**

```
G            D7       G       C                G
From here to there to you  my letter is on its way
   C              G         A7                    D7
To tell you how I miss you  ever since you sailed away
G            D7         G             C                    G
To tell you things are not the same  when I'm so far from you
    C             G                  D7       G
I'm sending all my love  from here to there to you

             D7       G        C                G
From here to there to you  and it's oh so far away
A7                                                 D7
Across this little painted map from here to there to you
G            D7      G          C                   G
I wish that I could go myself  across this ocean of blue
C             G                          D7       G
Along with my love letter  from here to there to you

             D7       G       C                G
From here to there to you  my letter is on its way
   C              G         A7                    D7
To tell you how I miss you  ever since you sailed away
G            D7         G             C                    G
To tell you things are not the same  when I'm so far from you
    C             G                  D7       G
I'm sending all my love  from here to there to you
```
