From Seven To Ten-Conway Twitty and Loretta Lynn
Author:Troy Seals and Max D. Barnes

```
C
Wait here for me I'll get the key
F        G7         C
Darling  I won't be long

The place isn't much  as soon as we touch
D7                       G7
Any where's home away from home

C
It's a very nice room do you like my perfume
  F          G7                C
I wanted everything to be just right
F                           C            F
There's so little time for a love of this kind
   C          G7               C
It can't even last through the night

G7                       C
We have to steal all the love that we feel
    F                   C
And we're feeling like stealing again
G7                      C
We'll never be free so it's gotta be
           G7           C
Loving from seven till ten
           G7           C
Loving from seven till ten

Do you see a trace of love on my face
F      G7                  C
I know she'll have on the light
F                     C           F
Look in my eyes can he see how I cried
      C          G7       C
While you were loving me tonight

Repeat #3
```
