Georgia In A Jug-Johnny Paycheck
Author:Bobby Braddock

```
C                                      F            D7
Mason jars on the dresser filled with dollars  and quarters
G7                                  C
Saving 'em for our trip around the world
                                                F          D7
But now you've change your tune there'll be no honeymoon
   G7                                    C
So tonight I'm going there without you girl

                                                F
I'm going down to Mexico in a glass of tequila
      G7                                        C
Going down to Puerto Rico in a bottle of rum
                   C7  F            D7
Going out to Honolulu  in a Mai Tai mug
        G7                                      C
And I'm coming back home to Georgia in a jug

                                      F               D7
We'll never ride that bus to Mexico City  that's a pity
      G7                                C
We'll never sail our ship into Old San Juan
                                    F             D7
You'll never walk with me on the beach at Waikiki
         G7                                      C
And we'll never share that brick suburban home

  G7                                          D7
Today I'm taking that money out of that jar
                             G7
Tonight I'll buy my ticket at the corner bar

    C                                         F
I'm going down to Mexico in a glass of tequila
      G7                                      C
Going down to Puerto Rico in a bottle of rum
                 C7    F            D7
Going out to Honolulu  in a Mai Tai mug
        G7                                    C
And I'm coming back home to Georgia in a jug
        G7                                    C
Yes I'm coming back home to Georgia in a jug
```
