Get Me Back To Tennessee-Dave Dudley
Author:Randall Jay Rogers

```
C              G7            F
Get me back to Tennessee I'm homesick
    D7           G7            C
For my sunny overgrown country town
                     G7              F
I thought I'd like to be a west coast cowboy
      D7                           G7
But I got lonely as the sun went down

    C             G7            F
The ladies living here sure are different
     D7                  G7                 C
They took my hard earned money now they're gone
               G7           F
Never did they ever satisfy me
       D7          G7                C
Like a hard lovin' country girl back home

               G7            F
Get me back to Tennessee I'm homesick
    D7           G7            C
For my sunny overgrown country town
               G7            F
Get me back to Tennessee I'm homesick
     D7      G7            F
I'll ride anything eastern bound

C           G7                F
Hitchhikin' days they're bout over
    D7          G7           C
Not many pickup strangers anymore
                 G7               F
Shave my face and cut my hair this morning
     D7                              G7
Well maybe I'll have better luck than before

C                G7               F
Mister thank you for the ride I'm glad to know
      D7            G7        C
You're goin' all the way to Alabam
                  G7        F
Just let me out on 65 in Nashville
   D7        G7            C
My sunny overgrown country town
```
