**Ghost Story-Don Williams**
**Author:Joe Allen**
**[3/4 time]**

```
G
I see how he travels
                              D7
Whenever he walks through your mind

Stirring up memories that cloud up your eyes
          C                           G
Where the light of our love ought to shine

I know that he hurt you hurt you so bad
   G7                        C
He must have been going insane
          D7
Well I've finally learned how to hold you together
                             G
When somebody mentions his name

     C
He's just a ghost story so don't let him scare you
                                G
He's not really there like he seems
    D7
And tonight when I hold you I'll hold you so close
                                 G
I'll love him right out of your dreams

I know that he's called you
                                  D7
And told you that our love can't last

But don't you believe him cause honey he's wrong
     C                          G
He's never been right in the past

So don't let him haunt you tell you those lies
   G7                             C
He just can't admit that you're free
       D7
So the next time he calls you just hand me the phone
                              G
And see if he says it to me

Repeat #3
```
