```
G                                                    D7
Give a little take a little take a little kiss from me
                                                    G
Take a little give a little give a little kiss to me
                                  G7                C
You're the one the only one the girl I'm thinking of
                                 G
Now don't you be afraid let's make a little trade
      D7                          G
Let's give a little take a little love

                                                                D7
Give a little take a little won't you give your heart to me
                                                              G
Take a little give a little I will give you mine you see
                                  G7                C
Don't be shy you know that I am true as the stars above
                                 G
So come into my arms let's share each other's charms
      D7                          G
Let's give a little take a little love
