```
G
Give me one more kiss
    C
For happiness I'll miss
    G
For when I turn and walk away
                 D7
We'll never kiss again

       G
Let me gaze upon you tenderly
    C
The way you used to look at me
     G
When we were happy and I thought
    D7               G
Our love would never end

D7
Everything is different now
    G
The flame of love went out some how
  D7
I have a funny feeling down inside
     G
That the happiness I'm searching for
   C
Is waiting on some foreign shore
   G
So darling give me one more kiss
D7                G
Before we say goodbye

Give me one more kiss
    C
One moment more of bliss
  G
Before I turn my back on love
                          D7
And break a heart that's true

      G
For a pretty girl a lovely song
   C
Is all the happiness I've known
    G
And I could never settle down
   D7                G
As you would have me do

D7
Memphis Dallas Sante Fe
  G
I loved them all they're calling me
  D7
I want to see the open road again
    G
I'm leaving just the way I came
     C
It's best if you forgot my name
   G
So darling give me one more kiss
    D7                     G
For things that might have been

Give me one more kiss
    C
And please remember this
    G
I'm not the kind to take a heart
                       D7
And break it just for fun
```

```
      G
And I know I'll miss your smiling face
  C
I want to feel your warm embrace
    G
But wanderlust is in my soul
  D7             G
I must be moving on

D7
Even though your love is real
     G
I've told you just the way I feel
   D7
It seem that there is nothing more to say
  G
I hear my train a-coming now
  C
I know you'll get along some how
   G
So darling give me one more kiss
    D7           G
And I'll be on my way
