Go Rest High On That Mountain-Vince Gill

```
G
I know your life
      C         G
On an earth was troubled
     C                   G
Only you could know the pain
            C                   G
You weren't afraid to face the Devil
             D7              G
Your were no stranger to the pain

             C       G
Go rest high on that mountain
           C                   G
Son you're work on Earth is done
          C     G
Go to Hea-ven a shouting
                    D7      G
Love for the Father and the Son

Oh how we cried
    C           G
The day you left us
         C                    G
Gathered round your grave to grieve
            C                G
Wish I could see the Angles faces
          D7                     G
When they hear your sweet voice sing

repeat #2
