Going Where The Lonely Go-Merle Haggard

```
C               F
Rollin with the flow
                C
Going where the lonely go
             G7
Anywhere the lights are low
                C
Going where the lonely go

                     F
Making up things to do

Not running in all directions
          C
Trying to find you
                      G7
I'm rolling with the flow
                C
Going where the lonely go

                  F
I've got to keep going
             C
I can't lay down
                    G7
Sleep won't hardly come
                                C
When there's loneliness all around

                  F
I've got to keep going
                     C
Traveling down this lonesome road
                     G7
I'm rolling with the flow
                C
Going where the lonely go
```

repeat #3 & 4
