Gold And Silver-Sonny James
Author:Shirley Legate

```
C               F           G7             C  F
Gold and silver have I none I can give you mo-r-e
C               F           G7             C F C G7 C
Gold and silver have I none I can give you l-o-o-v-e

                        F       C
Don't have a gold mine or a mansion
                             G7
Haven't even got you a finger ring
C                         F      C
Deep in my heart there's a little secret
             G7            C
Now I'm gonna share it with you
```

```
                          F         C
They can have the gold in Fort Knox Kentucky
                             G7
As far as we're gonna stand by love
  C               F           C
I knew a man once had lots of money
            G7        C
Cried every night for love

                  F            C
I'd rather have a sweet girl's love
                          G7
Than to hold a rich man's gold
C                  F      C
Don't have a penny in our pockets
                  G7      C
I know we're gonna live on love
```
