Guess I'll Be Going-Marty Robbins
[3/4 time]

```
G               G7              C
Here we are but we're not close together
   D7                  G
We sit far apart in a room
             G7             C
It's over I guess I'll be going
       D7         C         G
It's a pity love ended so soon

                     G7          C
You're waiting for someone to phone you
       D7                          G
You're watching the clock while you speak
             G7             C
It's over I guess I'll be going
        D7               C             G
But the truth leaves me helpless and weak

C          D7          G
I hear his car in the driveway
A7                                  D7
For the last time can I hold you tight
G                 G7       C
This moment must last me forever
  G              D7         G
I guess I'll be going goodnight

  G              D7         G
I guess I'll be going goodnight
```
