Guilty-the Statler Brothers
Author:Harold Reid and Don Reid

```
C               F     C                              G7
If she's guilty so am I if she's forgotten how to cry
            C      F          C   G7  Am
If she gets lonely don't know why
          C      G7    C
If she's guilty so am I

                                  C7
If she's changed I'll take the blame
       F                C
If somehow he's not the same
             G7                   Am
If there's a distant look in her eyes
          D7               G7
And she's lost the will to try

             C               C7
If she seems bitter of other days
              F                  C
Seems to have lost her Baptist ways
       Am                         C
If the truth comes harder than a lie
               G7    C
If she's guilty so am I
```
