I'd Rather Die Young-Johnny Cash
Author:Beasley Smith, Billy Vaughn, Randy Wood

```
C                          F                 C
I'd rather die young than grow old without you
                         D7            G7
So don't ever leave me whatever you do
   C                       F                 C
To see someone's picture where my picture hung
                           G7          C
Believe me my darling I'd rather die young

                           F                 C
I'd rather die young than grow old without you
                         D7            G7
So don't ever leave me whatever you do
       C                        F                   C
Though others may tempt you and tell you they care
                              G7        C
You'll find only sorrow in a secret affair

      G7               C
Don't leave me  never leave me
             G7                C
Please don't leave me never leave me
```
