I'd Rather Have You-Wanda Jackson
Author:Thelma Blackman
[3/4 time]

```
C                        C7     F
I wanted big diamonds and rubies too
            C                          G7
But now that I have them I'd rather have you
          C             C7          F
I wanted a mansion with everything new
            C           G7              C   F
And now that I have them I'd rather have you

C               F                            C
The kisses from your lips were sweeter than wine
                                            G7
The love that you gave me was something so fine
               C          C7       F
I'd give up my riches and rich man too
               C           G7              C   F  C
Cause now that I have them I'd rather have you

G7             C          C7       F
I'd give up my riches and rich man too
               C           G7              C   F  C
Cause now that I have them I'd rather have you
