I'd Rather Stay Home-Kitty Wells
Author:Felice Byrant and Boudleaux Byrant
[3/4 time]

```
G                       C        G
I'd rather stay home and cry over you
                      D7        A7            D7
Than to run around all over town with somebody new
    G                 C             G
I'd rather stay home forgotten and blue
                      D7              G
Than to look for fun with anyone but you

        D7                        G
There's nothing to be glad about since you went away
   A7                        D7
So what the use to get about pretending I'm gay
G                          C            G
My tears are too real for smiles to conceal
                      D7              G
I don't want to roam I'd rather stay home

                          C        G
I'd rather stay home and cry over you
                      D7        A7            D7
Than to run around all over town with somebody new
    G                 C             G
I'd rather stay home forgotten and blue
                      D7              G
Than to look for fun with anyone but you

        D7                        G
There's nothing to be glad about since you went away
   A7                        D7
So what the use to get about pretending I'm gay
G                          C            G
My tears are too real for smiles to conceal
                      D7              G
I don't want to roam I'd rather stay home
