I'll Forgive You But I Can't Forget-Roy Acuff
written Pee Wee King and J.L. Frank
[3/4 time]

```
C                                F
You ask me to forgive you little darling
     G7                      C
To forget that our plans were upset
                           F
I try oh so hard not to remember
       G7                      C
I'll forgive you but I can't forget

                           F
Somewhere I hope you are happy
     G7                        C
And I hope your heart holds no regrets
                                    F
Each night I pray the Lord to watch o'er you
       G7                        C
I'll forgive you but I can't forget

                                  F
The sadness of our parting still lingers
  G7                          C
My eyes from tears are still wet
                           F
I'll always love you forever
       G7                      C
I'll forgive you but I can't forget

                                F
Now that you've left me for another
      G7                  C
What a pity that we ever met
                                  F
For life's not worth living without you
       G7                      C
I'll forgive you but I can't forget
```
