I'll Get Over Losing You-Conway Twitty
[3/4 time]

```
C   F        G7        C
The pain the pain of a broken heart
                              G7
The price I'll pay for loving you
  C         F        C
I loved you from the very start
    G7                   C
But I'll get over losing you

              F       C
I just can't seem to realize
G7                C
You're leaving me today
           F         C
As burning teardrops fill my eyes
G7               C
I watch you walk away
```

Repeat #1

```
          F      C
I lost my love I lost my home
  G7                 C
I just can't seem to win
         F    C
If I get over losing you
G7              C
I'll never love again
```

Repeat #1
