I'll Keep Holding On To You-Sonny James
Author: Bob Tubert and Sonny James

```
C                              G7
I'll keep holding on just to your love
                                  C
When all else is gone I'll have your love
                          C7      F
With your hand in mine till the end of time
          C       G7    C
I'll keep holding on to you

                                G7
I'll be by your side when you need me
                               C
Always by your side when you need me
                              C7    F
Sheltered in your arms  you'll be safe from harm
          C       G7    C
I'll keep holding on to you

                               G7
I'll keep holding on just to your love
                               C
I'll keep going on just with your love
                        C7     F
And each passing day from my heart I say
          C       G7    C
I'll keep holding on to you
```
