I'm Always On A Mountain When I Fall-Merle Haggard
Author: D. Kerran and C. Howard

```
C                                   Dm
Most of my life I've almost been a winner
     G7                              C
I've come so close but never really won
                    C7          F
Just when I thought I'd finally made it
  G7                                C
I find myself back where I started from

  Em              Dm            F
I hate to say I'm giving up but I believe
G7                              C
Losing's just become a way of life for me
Em                            F
Losing wouldn't be so bad at all
        Dm          G7              C
But I'm always on a mountain when I fall

                                        Dm
Then you came along and had me had me believing
    G7                                   C
For once in my life my luck had finally changed
                        C7          F
And now you say you're gonna leave me
G7                                  C
Seems everything I do winds up the same

Repeat #2
