I'm Looking For Blue Eyes-Jessi Colter

```
C               A#   F               C
I'm looking for Blue Eyes has anyone seen him
          G7                    C
Don't you tell me he gave up on me
                A#   F                C
I'm looking for blue eyes I've got to find him
             G7                        C
Oh something tells me he's looking for me

            F                                      C
There was a time when blue eyes said he'd love no other
            F                      C
His one and only love he swore I'd be
                                                     F
There was a time when his blue eyes saw clearer than mine did
G7                                                  C
Storms and rain tears and pain bring me back his way

            A#   F               C
Looking for Blue Eyes has anyone seen him
             G7                     C
No don't you tell me he gave up on me
                A#   F                C
I'm looking for blue eyes I've got to find him
             G7                        C
Oh something tells me he's looking for me

                A#   F               C
I'm looking for Blue Eyes has anyone seen him
```
