I'm No Good At Goodbyes-Ronnie Milsap
Author: Ben Peters

```
C                                   F
You don't have to tell me that it's over
    C                              G7
For lately I can see it in your eyes
    C                                  F
And I'll be gone when you wake up this morning
      C              G7           C    G7
Cause darling I'm no good at goodbyes

C                                      F
I know we had the good things while it lasted
     C                                 G7
It's sad to see a good love when it dies
    C                                    F
But the teardrops only make it hard for leaving
    C              G7           C
And darling I'm no good at goodbyes

  G7                                        C
Although it breaks my heart to write this letter
  Am                           G7
I know someday that you will realize
     C                                    F
That when it hurts so much this way is better
    C              G7           C    F
And darling I'm no good at goodbyes
   C              G7           C
Oh darling I'm no good at goodbyes
```
