I'm Nobody's Child-Hank Snow
Author: Mel Foree and Cy Coben

```
C                        F
I was slowly passing an orphan's home one day
   C                            D7                          G7
And stopped there for a moment just to watch the children play
  C                             F
A lonely boy was standing and when I asked him why
   C                                      G7          C
He turned with eyes that could not see and he began to cry

                        C7       F
I'm nobody's child I'm nobody's child
G7                              C
I'm like a flower just growing wild
                      C7      F
No mommy's kisses no daddy's smile
G7                              C
Nobody wants me I'm nobody's child

                                F
People come for children and take them for their own
    C                              D7               G7
But they all seem to pass me by and leave me all alone
  C                                  F
I know they'd like to take me but when they see I'm blind
     C                                    G7      C
They always take some other child and I am left behind

                                F
No mommy's arms to hold me or sooth me when I cry
    C                                 D7                    G7
Sometimes it gets so lonely here I wish that I could die
    C                                 F
I'd walk the streets of heaven where all the blind can see
    C                                          G7          C
And just like all the other kids there'd be a home for me
```

Next two verses are spoken:

```
C
I just can't seem to figure out
F
Why the folks all pass me by
C
Cause I know that it's true that God takes
D7                                      G7
Little blind children with Him in the sky

    C
And they tell me I'm so pretty
    F
And they seem to like my big curls of gold
    C
But then they take some other little child
        G7              C
And I'm left here all alone
```

Repeat #2
