I'm Not Looking Back Anymore-Johnny Paycheck

```
C                                       G7
Oh the years we shared together are so great in memory
                                    F           C
I don't think I'll ever live long enough to be free
                                       G7
For the pleasures of our love was over shadowed by the pain
                                     F            C
So we'll say goodbye forever I can't walk that road again

                          E7                    A7
No I'm not looking back anymore our love was sweet
    F        G7                 C
But time has slowly closed the door
            E7                 A7
Now there's thorns where the flowers once grew
            G7             C
This is the end for me and you
        D7          G7      C
And I'm not looking back anymore

                                                    G7
When you know you've done the best you can that's all that you can do
                                     F              C
And I know I did the best I could to get along with you
                                                  G7
And if I'd known of something else I would have tried that too
                                    F             C
But I see my mistake one can't love enough for two

                         E7      A7
No and I'm not looking back anymore
   F           G7               C
If I must live alone I've lived alone before
            E7              A7
If life is lonely let it be
            G7                  C
I've still got what's left of me
        D7          G7      C
And I'm not looking back anymore

                                       G7
It's hard to make a new start when the world has made you old
                                       F                   C
And the years have made you bitter and heartaches turn you cold
                                         G7
And you keep on turning backwards to the moments that have fled
                                     F            C
A man can't keep on living with that cloud over his head

                    E7      A7
So I'm not looking back anymore
F                   G7             C
I'll throw away the cloths the old times wore
         E7         A7
Tomorrow is another day
F            G7                 C
Perhaps true love will come my way

        D7          G7      C
And I'm not looking back anymore
       D7          G7      C
No I'm not looking back anymore
```
