I'm Not Ready Yet-George Jones
Author:Tom T. Hall

```
G                    C                    G
I've always said that someday I was gonna leave you
               A7              D7
Some April when all the land is wet
     G             C                   G
Some spring summer fall Lord or maybe winter
                   D7                 G
I'll leave someday but I'm not ready yet

         C                                          G
I know I shoulda left the day I knew your love was dieing
                   A7                  D7
But I passed up every date that I ever set
      C                                          G
But I know I'll leave when my heart tells me it's ready
                  D7                   G
But I'm still around cause I'm not ready yet
```

Spoken:
You know I must have left you a hundred times
But you don't know that cause I was afraid I'd be ashamed that
You'd laugh when you found out just how far I'd get
But you didn't and you don't I know you ain't gonna ever know
And some day I'll go but I'm not ready yet

```
         C                                          G
I know I shoulda left the day I knew your love was dieing
                  A7                       D7
But I passed up ever date this ole boy ever set
      C                                                G
But I know I'll leave when my heart tells me George we're ready
                  D7                   G
But I'm still around cause I'm not ready yet

                 D7                   G
I'm still around cause I'm not ready yet
```
