```
C            D7
I'm
saving my tears for tomorrow
   G7                   C
For
tomorrow when I'll be alone
                     D7
I'll
laugh and be gay while you're with me today
                     G7             C
I'll
have a lifetime to cry when you're gone

F                         G7         C
While
you're near me I'll hide all my sorrows
D7                                G7
Play a
part or my heart will be numb
   C        D7
I'm
saving my tears for tomorrow
             G7            C
And
pretending tomorrow won't come

F                     G7            C
I'll
have time for my heartaches and sorrows
D7                                   G7
Through
the long lonely days later on
   C        D7
I'm
saving my tears for tomorrow
             G7            C
And
pretending tomorrow won't come
