```
C
They say that you love another
        G7                  C
Tell me that you've been untrue
    F               G7
You may say you will go
     C                   F
When your heart tells you no
    C           G7       C
And I'm still a fool for you

             G7            C
You may find that you love someone
                 G7         C
And that someone may not be me
        F              G7        C           F
In your heart you will know that I love you so
C           G7       C
I'm still a fool for you

       F    G7       C
If you ever care for someone else
F           G7           C
Then please don't let it show
F              G7        C                F
For I'm just a fool that just has to have you
    C           G7       C
Yes I'm still a fool for you
```

Repeat #2

```
            G7       C
I'm still a fool for you
```
