I'm Stoned-Alabama
Author:Randy Owens and Teddy Gentry

```
C                          G7
Sitting here and drinking hey that's my favorite song
                                        C
What's that that I hear ringing would someone get the phone
F                              C   Am
Wondering if she'll ever come h-ome
         Dm       G7            C
I've had no sleep sad songs I'm stoned

                                G7
Our love a fading memory as I chase another down
                                  C
My eyes are getting heavy and my head's spinning 'round
      F                               C   Am
Still wondering if she'll ever come h-ome
         Dm       G7            C
I've had no sleep sad songs I'm stoned

                                   G7
Closing time I drive for home not feeling any pain
                                  C
Thoughts of her drift back to me through the falling rain
    F                          C   Am
Not caring if she ever comes h-ome
         Dm       G7            C      Am
I've had no sleep sad songs I'm stoned
         Dm       G7            C
I've had no sleep sad songs I'm stoned

                                G7
Our love a fading memory as I chase another down
                                  C
My eyes are getting heavy and my head's spinning 'round
    F                          C   Am
Not caring if she ever comes h-ome
         Dm       G7            C
I've had no sleep sad songs I'm stoned
