I'm Suffering From A Heartache-Johnny Tillotson
Author:Johnny Tillotson and Paul Tannen

```
C                                    F
I never thought that I could care the way I cared for you
G7                               F                    C
But on the day you went away my heart broke right in two
                                   F
You made me the laughing stock of everyone in town
        G7                                                C
Now I'm suffering from a heartache since love's turned me down

    F                                  C
I'm suffering from a heartache and I don't know what to do
    G7                                                  C
And I just can't keep from crying each time I think of you
     F                             C
Oh I guess I must be crazy to love you like I do
        G7                                          C
And I'm suffering from a heartache caused by you

                                     F
I know I should forget you but it's hard to make the change
G7                                        F                    C
Cause memories keep on coming back when someone speaks your name
                                   F
You left me for the glamour of the bright lights of the town
        G7                                                C
Now I'm suffering from a heartache since love's turned me down
