C                       F                 G7
There'll be times when I can't get away to be with you
F              C               G7
But it won't be because I'm not wanting to
C              C7              F
The only time I live the life I'm longing to
         C                    G7      C
Are those stolen moments that I spend loving you

             F              G7
When I'm not loving you I'm wanting to
F                C                              G7
And any time I'm on your mind you're on mine too
C              C7                F
Remember not to doubt my love and if you do
       C                  G7              C
Oh you know when I'm not loving you I'm wanting to

G7                                      F                C
We met too late but that mistake can't change the way I feel
G7                       F              C
Right or wrong I love you and I always will
                    C7          F
The part of me that never lived now lives because of you
    C            G7             C
And when I'm not loving you I'm wanting to

             F              G7
When I'm not loving you I'm wanting to
F                C                              G7
And any time I'm on your mind you're on mine too
C              C7       F
Don't doubt my love and if you do
       C                  G7              C
Oh you know when I'm not loving you I'm wanting to
                      G7              F         C
You know when I'm not loving you I'm wanting t-o
