I've Gotta Walk Alone-Bob Wills
Author:John Hathcock and Weldon Allard

```
C
I've gotta walk alone my sweetheart's gone
F
Nobody here loves me now
       G7
It's a long and lonesome road
                 C
I've got to walk alone

All the friends I knew by two and two
F
Have left me one by one
       G7
It's a long and lonesome road
                 C
I've got to walk alone

           G7                C
Don't know where don't even care
G7                                C
I just keep walking on and on and on
```

Repeat #2, 3, 2
