I've Just Found Another Reason For Loving You-Charley Pride
Author:Joe Keene and Charles Isbell

```
G                                      C
Somehow you know just what it takes to please me
    G                                  D7
Sometimes I think that you can read my mind
    G                                     C
And when the weight of the world is on my shoulders
       G                 D7             G
You're there to share my burdens every time

                      F              G
If I could count the reasons why I love you
                      F                 D7
I'm sure there would be a million or two
       G                 C             G           C
And it occurs to me that I can't live without you
              G              D7                 G
And I've just found another reason for loving you

                                       C
I always start my days with lots of sunshine
     G                                 D7
It's in your smile and in your morning kiss
    G                                    C
And more than once I've asked myself the question
         G       D7                 G
How could any man ask for more than this

Repeat #2

C             G              D7                 G
And I've just found another reason for loving you
```
