I Love Him Dearly-Webb Pierce

```
G                      D7              G
There's a raging fire burning deep inside of me
                             G7            C
And this love for my Lord Jesus I must tell
        Am
When I look down the road I left behind me
A7                             D7
I see how easily I could have fell

G                              D7          G
I shutter when I think what could have happened
                            G7             C
But He reached out His glove and lifted me
    Am      G     C                      D7
Yes He's so wonderful and I love Him dearly
     C                D7                G
More dearly than the spoken word can tell

                    D7                 G
Once it seem that there was no way out for me
                   G7              C
This baron loneliness was all around
         Am
From temptation I never thought that I'd be free
A7                                  D7
Until one day His precious love I found

G                      D7                G
He's so great He even loves the likes of me
                       G7                C
My life that was once torn is now at peace
    Am      G     C                      D7
Yes He's so wonderful and I love Him dearly
     C                D7                G
More dearly than the spoken word can tell

                    D7              G
I have no fear of death with Him beside me
                      G7            C
The agonies of life and pain are gone
     Am
I've set my sights to be with Him in heaven
A7                                    D7
I can hardly wait to see Him on His throne

G                        D7           G
I live life to tell the world about Him
                              G7            C
And His wondrous love that I had never known
    Am      G     C                      D7
Yes He's so wonderful and I love Him dearly
     C                D7                G
More dearly than the spoken word can tell

    Am      G     C                      D7
Yes He's so wonderful and I love Him dearly
     C                D7                G
More dearly than the spoken word can tell
```
