**Icicles Hanging From Your Heart-Kitty Wells**
**Author: Mary Drummond and Autry Inman**

```
G                              C       G
You've got a heart of gold but it's so cold
C               G                D7
There's icicles hanging from your heart
G                           C     G
You've got the kind of eyes I ido-lize
C                   D7                 G
But there's icicles hanging from your heart

    C                               G
I'm gonna try to build a flame of love from the start
                        D7                  G
And melt those icicles hanging from your heart

                               C              G
You're so sweet to hold but your love's so cold
C               G                D7
There's icicles hanging from your heart
G                          C       G
You don't care if I just sit and cry
C               D7                 G
There's icicles hanging from your heart
```
