If I Cried Every Time You Hurt Me-Wanda Jackson
Author: Harlan Howard

```
C                    C7        F
If I'd cried   every time  you hurt me
       G7             C
I'd be cryin' all the time
              C7           F
If I   made a scene   each time you were mean
        G7                  C
we'd be quarrellin' all the time

   G7                   C
But I  don't cry and I don't get mad
  G7                C
I try  to take the good with the bad
                     C7       F
If I'd cried every time you hurt me
       G7             C
I'd be cryin' all the time

                  C7      F
Now and then you say you love me
    G7                   C
Oh I try to believe you do
                     C7         F
Then you turn right around and hurt me
          G7           C
Like I was nothing   to you

      G7                    C
But I love you so and I'll stay somehow
   G7                       C
My tears won't flow and my head won't bow
                C7             F
If I'd cry every time you hurt me
       G7             C
I'd be cryin' all the time
```
