If It Don't Come Easy -Tanya Tucker
Author: Craig Karp and Dave Gibson

```
G                                          C
I know a man a good friend of mine he spends all of his time
          D7                   G
Trying to make love a-work out right

But the woman that he loves she don't feel the same
             D7                      C                      G
I don't know much about love but at least I've learned one thing

                  D7    C                 G
If it don't come easy  you better let it go
                    D7    C                  D7
Cause when it don't come easy  there's no natural flow
                      C                   G          C
Don't make it hard on your heart you might be better off alone
                  D7    C                   G
If it don't come easy  you'd better let it go

                                                                C
I know a woman she's got a heart of gold You know she'd do anything
    D7                          G
To make her man feel right at home

But the man she loves he's a restless kind of guy
       D7                C              G
I wish there was a way I could make her realize

Repeat #2

C               D7
Let it go oh oh ooh
C                  G
Though it's hard I know
C      D7
Let it lo-o-ose
  C                G
I tell you it's no use

Repeat #2

                  D7    C
If it don't come easy  you'd better let it
                            G
Better let it  better let it go

Repeat #2
```
