If Kisses Could Talk-Vernon Oxford
Author: Everett Corbin

```
C                          C7                 F
If kisses could talk   oh things they would say
G7                     C
They'd  go telling on you
                       C7               F
If kisses could talk  they'd give you away
    G7                      C
And make  you lonesome and blue

                      F                                C
They'd tell how you cheated  they'd tell how you lied
                   D7                                 G7
They'd show how I suffered  they'd show how I cried
                   C             C7                   F
If kisses could talk  that's just what they'd do
G7                     C
They'd  go telling on you
```
