If You Can Live With It-Bill Anderson

```
G7                              C
You say you've found another  another you love better
                    G7                      D7
You say you're gonna leave me  pack up and go
                 G7                                C
You don't wanna hurt me  but you've just gotta have him
               G7           D7       G7
And how will I take it  you want to know

                                C
Well if you can live with it  I can live without it
                    G7                        D7
If you can face your conscience  I can face my pride
                 G7                         C
If you can live with it  I can live without it
                 G7                        D7     G7
Cause I did the only thing I could do  baby I tried

                                      C
Can you really take your rings off  without feeling kinda dirty
               G7                                   D7
Can you really kiss him  while you're wearing my name
                  G7                          C
Can you run your fingers  all across his body
                    G7           D7       G7
Without missing me a little  and feeling ashamed
```

Repeat #2
