If You Could Touch Her At All-Willie Nelson
Author: Lee Clayton

```
C                                    F
Funny a woman can come on so wild and free
    G7                                                  C
Yet insist I don't watch her undress or watch her watch me
                                                    F
And stand by my bed and shiver as if she were cold
        G7                                            C
Just to lie down beside me and touch me as if I were gold

                                                     F
One night of love can't make up for six nights alone
        G7                                                  C
But I'd rather have one than none Lord cause I'm flesh and bone
                                                            F
And sometimes it seems that she ain't worth the trouble at all
              G7                                                    C
But she could be worth the world if somehow you can touch her at all

                                    F
Right or wrong a woman can own any man
        G7                                            C
She can take him inside her and hold his soul in her hand
                                                    F
Then leave him as weak and weary as a newborn child
G7                                                  C
Fighting to get his first breath and open his eyes
```
