If You See Her-Waylon Jennings
Author:Mickey Newbury

```
C                      F           C
If you see her and she mentions my name
                            Dm         G7
Tell her the times have but I have not changed
Dm                        C             F
All my friends know that I still feel the same
C                      G7          C
If you see her and she mentions my name

                F           C
If you see her ask her for me
                       Dm          G7
If the dreamer in her ever set her free
Dm                        C            F
Does she know now what the words I sing mean
C                        G7          C
If you see her would you ask her for me

F                              C
Everything I told her then was true
F                         C
Everything was true at the time
F               G7     F             G7
But time has a way of changing everything
F                G7
The truth has a way of changing all the time

C                      F           C
If you see her and she mentions my name
                            Dm         G7
Tell her the times have but I have not changed
Dm                       C           F
There's no reason now for her to feel ashamed
C                      G7          C
If you see her and she mentions my name
```
