If You Think You're Lonely-Johnny Paycheck
Author:Linda Buell, Carl Rupp, Larry Johnson
[3/4 time]

```
G                              G7               C
Yes it's me tonight alone and I'm sure missing you
        D7                                          G
There's nothing as bad as this hurt that I'm going through
                                  G7                C
You say the house where you live is just a cold empty space
        D7                                                   G
Well if you think that you've got it bad you should be in my place

                                            G7            C
Cause if you think you're lonely you should be here with me
                  D7                        G
Cause I'm just as lonesome as one man can be
                         G7             C
And your love's the only love I'll ever need
                  D7                                G
If you think you're lonely you should be here with me

                                   G7                C
You say the bed where you live is just a cold empty place
       D7                                                 G
Well I know how you feel cause I feel for you there in your place
                                          G7          C
You say the house where you live is just a cold empty space
        D7                                                  G
Well if you think that you've got it bad you should be in my place

                                         G7            C
Yes if you think you're lonely you should be here with me
                  D7                     G
Cause I'm just as lonesome as lonely can be
                         G7             C
And your love's the only love I'll ever need
                  D7                                G
If you think you're lonely you should be here with me

                         D7                                C G
Yes if you think you're lonely you should be here with m-e
