It's Only Love-Elvis Presley
Author: Steve Tyrell and Mark James

```
C                          F
I see the sunlight in her hair
G7                                C
I feel the warm smile that she wears
                          F
She has no recipe for love
G7                     C
But I just can't get enough

                           F
From the distance of my mind
G7                                C
A clock that's ringing says it's time
                       F
Wake up to my destiny
G7                        C
It's time to face reality

It's only love that I feel inside
    F                  C
But I'll get by somehow

It's only love
F                                 G7
There must be something else for me girl

  C                            F
I tell myself that it's not real
G7                                C
There's nothing left for me to feel
                           F
I'll just be going on my way
G7                        C
Tomorrow brings another day

It's only love only love that I feel inside
         F
But I've got to be strong my mind's made up
          C
It's only love but I know I'll get by
        F                                  G7       F
Take my heart and my pride and just throw it aside
          C
It's only love
```
