C
I've heard that word before
Am
Heard it whispered on the barroom floors
F C
I've seen it carved on wooden doors down dark hallways

What's so special about that word
Am
So common and so often heard
F C
That could give someone like me the nerve to say always

F G7 D7
It's only love
G7 F C
It's only love
F G7 D7 C
It's only love again

I've seen that special look
Am
Make an heart an open book
F C
And I remember the time it took my breath away

And I've seen how a fire can start
Am
Make a chill from the coldest heart
F C
How it feels when it falls apart the price you pay

Repeat #2

Tell me what's so special about this now
Am
I've seen it all before and still somehow
F C
I hear your voice and see you smile and fall again

Repeat #2 x2
