It's The Age That Makes The Difference-Ernest Tubb
Author:George Sherry and Vernon Claude

```
G                                C                   G
When I was just a little boy and life was bright and new
C              G                 A7                D7
Askin' foolish questions was all I could find to do
    G                             C                  G
One day I asked my grandpa why he moved around so slow
        C                 G               D7           G
He said listen son I'll tell you if you really wanna know

                                                    C                   G
It's the age that makes the difference and the difference you can see
                                                    D7
I'm runnin' out of what the doctors call vitality
    G                                       C           G
I'm just like a dried up apple that keeps hangin' to a tree
                                                    D7                   G
It's the age that makes the difference and the difference tells on me

                                  C           G
So when I started courtin' I was bashful and shy
C                 G             A7              D7
It tore me all to pieces when a girl winked her eye
    G                             C              G
But when I started catchin' on I didn't learn to slow
C                G            D7          G
Pretty soon they said I was a regular Romeo

                                                  C                  G
It was the age that made the difference and the difference put me wise
                                                                    D7
That the time was right for lovin' and the limit was the sky
G                                 C                  G
Pretty soon I found out what it took to knock 'em cold
                                                    D7                  G
It was the age that made the difference and the difference made me bold

                                C          G
Not long ago I was a man that really got around
    C                 G              A7              D7
But here of late I've noticed that I started slowin' down
  G                               C                  G
I find it ain't no trouble now to stay at home at night
C                     G             D7           G
I'm mild and mellowed now but I will soon be over right

                                                    C                   G
It's the age that makes the difference and the difference makes me know
                                                                      D7
That my high speed days are over and I'll have to take it slow
        G                                   C              G
I ain't really feeling older but I just don't feel the same
                                                        D7              G
It's the age that makes the difference father time can make a change
```
