G                      G7            C
It's time to cross that bridge that we talked about
    G                                D7
It's time to take that step across the line
        G                 G7           C
Yes it's time to cross that bridge that we talked about
     G            D7              G
Cause loving you is all that's on my mind

                    G7                 C
We both knew at the start what it would lead to
        G                                 D7
Said we'd cross that bridge if ever comes the time
        G              G7              C
But every day I find that more and more I need you
            G               D7              G
And when I'm holding her it's you that's on my mind

                           G7            C
Yes it's time to cross that bridge that we talked about
    G                                D7
It's time to take that step across the line
