It Comes And Goes-Eddy Arnold
Author: Bill Anderson

```
C
Everybody asks if I still love you
                          G7
And if you're still on my mind

They ask me to tell 'em about my broken heart
                                C
And I tell 'em that I'm feeling fine

I lie a little bit and I proudly say
           C7     F
Our book of love is closed
                    C
And your memory never bothers me
           F                C
And when it does it comes and goes

            G7
It comes and goes all right
                             C
Comes every morning and it goes all night
                      C7                    F
I save a lot of pride and I haven't really lied
  G7                             C
I just tell 'em that it comes and goes

Everybody asks if I cried when you left me
                          G7
And if I've cried for you since

They hope I have so they can all get together
                    C
And laugh it up at my expense

So I lie a little bit and I proudly say
        C7        F
Not one tear drop flows
                                        C
When there is a little pain it's not a constant thing
   F                     C
It kinda just comes and goes

Repeat #3
```
