It Do Feel Good-Donna Fargo

```
G              C                              G
I'm kicking my heels together free again I feel like me again
  D7                           G    D7   G
I know without a doubt I'm in love love love
    C                             G
And I don't have to make believe or feed a guilty conscience
D7                        C  D7   G
Love set me free and it do feel good

I just went through this painful thing of questions without answers
                                        D7
Kept coming up with nothing for the longest time

My heart kept racing with my conscience and claiming all my daydreams
                         G
Way out in front of my mind

And that awful gnawing feeling like you're gonna die from hunger
    G7                                                  C
You don't find out where you're going and how to get there
    D7
But now it's worth all that confusion cause I found me an answer
                                       G
And I know love is alive again within me

Repeat #1

I've finally figured out how yesterdays fit into tomorrows
                                                  D7
And I've learned that little doubts are just unfinished dreams

And I guess I'll keep on learning the same lessens all over
                               G
And nothing is as bad as it seems

And I've just got to accept the fact that I have to accept the fact
     G7                                      C
That love goes through changes just like we do
    D7
And an occasional distraction a little quiet a little action
                                           G
And a whole lot of patience will make it grow

Repeat #1  x2
```
