It Only Rains On Me-Don Williams
Author:Bob McDill

```
C          G7          C
I know all about black clouds
                         G7  F
There's one that follows me around
C      G7          Am      F
It may sound funny but somehow
C               G7  F  G7
It only rains on me

C                  G7   C
It follows me most everywhere
                  G7     F
And it seems it's hardly fair
C           G7       Am     F
People will stop and people stare
C           G7       C   F  G7
But it only rains on me

C                 F
Broken dreams and drowned parades
G7              C
Lovers who just slip away
Am                   F
Guess I've learned to live that way
C               G7
It only rains on me

C                 F
Seems to me there was a time
G7                 C
It used to rain on friends of mine
Am         F
Now I look around and find
C       G7       C
It only rains on me

                    G7       C
I'll bet this won't hurt you much
                    G7   F
You'll find someone soon enough
C       G7       Am       F
I'm the one that loses at love
C               G7  F G7
It only rains on me

C                 G7          C
It's time we said goodbye and so
                  G7         F
I'll just take my cloud and go
C     G7           Am       F
Don't worry you'll forget I know
C       G7       C
It only rains on me
```
