It Turns Me Inside Out-Conway Twitty
Author: Jan Crutchfield

```
C
In a way I'm glad it's over
     F                                    C
Even though it's gonna hurt me once you're gone

I can learn to live without you
        F                           C
Give me time and I can make it on my own

       F
Loving you to me came easy
                                      C
Now losing you will change my life no doubt
         Em
And in a way I'm glad it's over
   Dm             G7              C
In another way it turns me inside out

In a way I guess it's better
     F                                    C
Even though there's nothing good about goodbye

And I know I couldn't hold you
           F                                        C
Now you've found your wings and you need room to fly

             F
And it's for sure I'm gonna miss you
                                       C
But I guess that's what goodbye is all about
         Em
And in a way I'm glad it's over
       Dm              G7              C
But in another way it turns me inside out

       Em                              F
On the one hand I know I'll be better off once you're gone
      C             G7                C
But I find a lot of heartache on the other
      Em                                    F
And I can't say I'll look forward to those nights I'll spend alone
      C                  G7       C
And I wonder will there ever be another

Repeat #2

         Em
Yes in a way I'm glad it's over
   Dm             G7              C
In another way it turns me inside out
```
