Jack Daniels If You Please-David Allan Coe

```
C                   F       G7              C
Jack Daniels if you please  knock me to my knees
                  F                       G7
You're the only friend there has ever been
                   C
That didn't do me wrong
                    F       G7              C
Jack Daniels if you please  knock me to my knees
                    F                       G7
You can kill this pain that's driving me insane
                  C
Since my baby's gone

                F        G7              C
Cigarettes and whiskey  calm my shaking hands
               F      G7              C
I just lost a lover  to a one night stand
                A#  F                   C
Something tempora--ry too late I had to learn
                  F        G7
Someone from her past who said it couldn't last
                   C
A bridge she couldn't burn

Repeat #1

               F       G7                  C
Promises were broken  dreams were left to die
                 F       G7                  C
Empty words were spoken  tears were in our eyes
                A#  F                        C
Something tempora--ry those tears will fade away
                  F      G7
Do the best you can to help me understand
                    C
These games that people play

Repeat #1
```
